### TUFFY558 Silent Blade

This long-lasting cutting blade is designed to reduce the high decibel level that does damage to your hearing. This blade is created a bit thicker and has cut costs in half and increased the productivity by over two times the footage.

---

---

### BILLYBOY1 Blade

This segmented diamond core saw blade proves to be one of our most popular blades, the Billyboy1 core saw blade is used for hard to very hard rock and has great success with footage and performance.

---

---

### BILLYBOY14

Much like the Billyboy 1 segmented core saw blade, the Billyboy 14" core saw blade is used for medium to hard rock, most popularly used from Northern Manitoba and Saskatchewan all the way to South America. This blade also has great success with its footage and performance.
